

**Office of the Legislative Counsel**

**Friday - 23 May 1958**

50X1

50X1

[redacted] (Logistics) called to say that the individuals on the committee staffs who would be involved in the proposed negotiation between GSA and an Agency-related organization were, Mr. Walter L. Reynolds, Staff Director of the Senate Committee on Government Operations and Miss Christine Ray Davis, Staff Director of the House Committee on Government Operations. A request was made to the Security Office to check on these individuals for possible future contact.

Mr. D'Arcy Brent (OSI) called and said that it was his understanding that the Atomic Energy Act Amendments were being referred back to the Executive Departments and that the last paragraph of the amendments, in which we had an interest, has been removed. Mr. Brent was advised that we would check on this and contact him.

Delivered to the Joint Committee on Atomic Energy a series of OSI intelligence reports which had been requested by Mr. James Ramey, Staff Director of the Committee.

Delivered to Mr. Holland Severy in the Bureau of the Budget, the classified letter containing Agency comments on State Department's proposed amendments to the Foreign Service Act. Mr. Severy indicated that they were progressing satisfactorily in their review of the State material. He also indicated that the State Department was running into some trouble with the Bureau on the sections relating to retirement benefits in selection-out cases and foreign language training. I mentioned that State people had been in touch with us concerning our language training program. Severy said he was aware of this and that if State had stuck to our type of program, Budget would probably have gone along with it. At this moment they are completely up in the air on this part of their bill.
